

Green hydrogen will play a key role in the global energy transition. **Become an exhibitor or sponsor in the hydrogen exhibition area in Hall 2!**

The wind industry is characterized by the energy transition, where green hydrogen makes a significant contribution. With HUSUM WIND 2025, we are offering you a new platform to present yourself as a provider of green hydrogen solutions in a familiar environment and to strengthen your position as a pioneer in this field.

Four good reasons for exhibiting:

1. The opportunity to network with potential customers, partners and investors and identifying potential business opportunities
2. Expand your network
3. Increase the visibility of your company and products through brand presence
4. Showcase new innovations

Join the ranks of companies showcasing their products, new technologies and services in hydrogen and related fields.

In addition, our **Hydrogen Forum** will provide you with the **latest trends**, challenges and prospects in the hydrogen sector through **presentations** and **discussions** by our experts from industry and academia.

Or would you like to share your expertise and insights on your own products as a speaker? Then choose the speaker slot as part of the exhibitor package.

Use the opportunity to network, build partnerships and develop potential business opportunities.

> Become an exhibitor or sponsor now and get a speaker slot!

Supported by:

Join the hydrogen network and lead the energy transition!

Our Hydrogen Area offers space for around 20 exhibitors on 650 m² of exhibition space in Hall 2.

At HUSUM WIND 2025 we will be focusing on infrastructure, logistics and transport, legislation, research, development, financing, technology and safety in the field of green hydrogen.

Join us as an exhibitor and present your products and services to a broad trade audience. Our complete stand package offers maximum success with minimum effort.
